## I INTRODUCTION AND NAPLEX® MATH STUDYING TIPS 1

### 1 Introduction 3

- How to Use This Book
- Information about the NAPLEX®
- Approved Calculator

### 2 Preparing for the NAPLEX® 5

- What Are the NAPLEX® Competency Statements?
- How and Where Do Pharmacy Calculations Fit In to the NAPLEX®?

## II PHARMACY CALCULATION EXPLANATIONS AND SAMPLE PROBLEMS 7

### 3 Fundamentals of Pharmacy Calculations (Competency 2.1.0) 9

- Common Pharmacy Abbreviations
- Estimating
- Rounding
- Units
  - International System of Units (SI system)
  - Other common conversions

- Systems of Measurement
  - Measuring volume
  - Measuring weight
  - Percent error
  - Least weighable quantity
- Temperature Conversions

## 4 Expressions of Concentration (Competencies 2.1.2 and 2.2.0) 19

- Parts per Million and Parts per Billion
- Percent Strength and Related Expressions of Percent Concentration
- Ratio Strength
- Density and Specific Gravity
- Molarity
- Osmolarity
- Milliequivalents
- Millimoles
- Ionization

## 5 Calculating Medication Quantities (Competencies 2.1.3, 2.1.4, and 2.2.0) 35

- Tonicity
- Stock Solutions
- Dilutions and Concentrations
- Alligation
- Reducing and Enlarging
- Aliquots
- Buffers

## 6 Calculating Nutritional Needs (Competency 2.1.1) 45

- Nutrient Sources
  - Carbohydrates
  - Proteins
  - Fats (Lipids)
  - Micronutrients in nutritional fluids
  - Fluid considerations in nutrition formulae
- Calculating Nutritional Needs
  - Enteral nutrition calculations
- Calculating Fluid Needs
  - Parenteral nutrition calculations
- Body Mass Index

## 7 Dose Calculations (Competencies 2.1.3, 2.1.4, and 2.2.0) 57

- Basic Dose Calculations
- Dose Calculations on the Basis of Age, Body Weight, and Body Surface Area
  - Age-based dosing
  - Weight-based dosing
  - Body surface area-based dosing

## 8 Rates of Administration (Competency 2.1.5) 61

- Infusion Rates

## 9 Miscellaneous Concepts (Competencies 2.1.3 and 2.2.0) 63

- Creatinine Clearance
- Nuclear Pharmacy: First-Order Equation and Half-Life

## III PRACTICE MATH CALCULATIONS WITH SOLUTIONS 67

### 10 Math Calculations by Topic 69

Calculations with solutions sequentially arranged according to the table of contents

## IV PULLING IT ALL TOGETHER 133

### 11 Case Questions 135

Cases with solutions involving multiple topics and domains

## REFERENCES 147
